

# Cure Dextra® Closed System

Cure Medical manufactures traditional and innovative intermittent catheters of exceptional quality and value. They always feature smooth, polished eyelets and are not made with potentially harmful chemicals such as DEHP\*/DINP, BPA, or NR-Latex. Additionally, Cure Medical supports medical research. Request product samples today.

## CURE DEXTRA® CLOSED SYSTEM BENEFITS

The unique Cure Dextra® is an upgrade to a traditional closed system. Proprietary features help make the Cure Dextra® easy to use – so individuals with limited dexterity can advance toward increased independence.

- **Reinforced Finger Loops** in the package enable easy opening.
- **A Support Band** on the back of the 1000 ml collection bag enables stability and controlled use.
- **Tip Advancing Technology** moves the pre-lubricated catheter out of the bag into the body without contact.
- **A Gripper Arrow** makes it easy to advance the catheter with each full forward stroke. The catheter does not retract with the full back stroke.

## REQUEST SAMPLES

Contact your local distributor of quality healthcare products or visit [www.curemedical-dextra.com](http://www.curemedical-dextra.com) to request free product samples to try.
